

**City of Wilson
ADA Transition Plan**

As required by the Americans with Disabilities Act (ADA), Title II, all public entities which employ fifty (50) individuals or more must complete a transition plan, which outlines the steps and schedule for making facilities accessible to disabled individuals. Based on Title II, a municipality may not deny the benefits of its programs, activities, and services to individuals with disabilities because its facilities are non-accessible. The municipal services, programs or activities, when viewed in their entirety, must be readily accessible to and usable by individuals with disabilities. This standard, known as “program accessibility”, applies to all existing facilities of a municipality.

When visiting any City of Wilson facility please help us assess accessibility. If you have suggestions for improving accessibility, please call the Human Relations Office and share your ideas with the City’s ADA Coordinator—252-399-2308.
